5 April 1967

MEMORANDUM FOR THE RECORD

Morning Meeting of 5 April 1967

DD/I reported on Bruce Clarke's mission in connection with the briefing requested by Ambassador Bowles.

In reply to an earlier question Lehman informed the Director of the suspension of flights into and out of Nigeria.

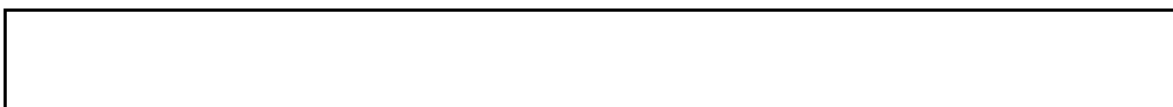

Lehman noted a report, which the Embassy is inclined to doubt, that Duvalier will go to the summit meeting after all.

Kent asked the Director for guidance on the need for a security Estimate on Guyana in connection with the President's scheduled fueling stop. DD/P said that he will check on the security of the airfield. The Director did not see the need for an Estimate at the moment but asked Kent to bring the pertinent paragraphs to tomorrow's meeting. There will be no pre-USIB.

DD/S briefed the Director on the way in which he proposes to conduct this year's Savings Bond Campaign. Executive Director thought it is important to be in a position to say that all hands were contacted. The Director agreed that the campaign should be run as usual.

Warner reported that he contacted Congressman Hebert with regard to inserting the Bill Attwood editorial into the Congressional Record.

Bross reported on a proposal to amend NSAM 54-12. The Director said that he will be seeing Foy Kohler this afternoon and will discuss this with him.

25X1

DD/P initiated a discussion on U. S. policy toward Panama.

DD/P discussed the possibility of further publicity involving the Agency. The Director suggested that Houston form a committee to examine this matter and to consider the possibility of the Director's sending a letter to both the Attorney General and J. E. Hoover.

Executive Director reported on his meeting with Idar Rimestad yesterday. He said it was agreed that these meetings will continue once a month and asked that appropriate items for discussion be called to his attention.

Executive Director asked the DD/P, in connection with the visit next Wednesday of Michaels and Woodruff, to appoint a designee to get together with [REDACTED]

The Director noted an Embassy cable from Nairobi and gave the DD/P guidance.

ACTIONS:

1. The Director asked Kent to consort with the DD/P and to undertake the preparation of a SNIE on Panama.
2. DDCI asked the A-DD/S&T to provide him with an Agency and USAF inventory of U-2 aircraft this morning.

[REDACTED]
